

## 1997-2008 Corvette Lap Belt Bar

Before installing the lap belt bar check that all hardware is thoroughly tighten.

Loosen the front seat nuts half way with a 15mm socket. Move seat forward and fold forward. Remove the 2 rear seat nuts with the 15mm socket.

On C5 Corvettes (97-04) Cut the carpet about 4" towards the center of the seat as shown. This will allow the bar to fit directly on the seat floor. Position the Bar under the seat frame rails as shown. Bring seat frame down on top of the anchor bar. Install the two seat nuts. If possible, torque to 20 Ft.-Lbs. Tighten the front nuts as well.

### **6 pt sub- belts installation**

Weave the sub belts through the bolt-in plates and back through the adjusters as shown. Follow the harness belt manufacturer instructions. Attach quick release clips to the lap belt and clip them to the eyebolts. Route the lap belts around the seat and the sub-belt through the seat as shown.

An anchoring stud will be required for the users of BK, RD, or harness bar requiring an anti-bar rotation strut. You will need our custom 17-4 PH stainless steel thread adapters (optional hardware) to mount the strut. The foot on the end of the strut can go over the stud extension and secured with the provided washer and nut. (The foot hole needs enlargement to 14mm DIA) For technical assistance HardbarUSA @ 603-682-8073

Hardbar products and parts warranties are voided if the vehicle or part is used for competition or if they fail as a result of modification. It is the purchaser/drivers responsibility to inspect the dimensions, specifications, and performance of all parts as being appropriate for the use to which the purchaser/driver will put them prior to any actual installation and use of said products and/or parts. Products and parts are sold "as is" without any warranty whatsoever. Implied warranties, including warranties of merchantability or fitness for a particular purpose, are excluded. The entire risk of quality and performance of such parts is with the buyer. Should such parts prove defective following their purchase, the buyer and not the manufacturers, distributors, or retailers, assume the entire cost of all necessary services or repair. The purchaser/driver is on notice that racing competition is an inherently dangerous activity, which can result in serious personal injury and even death to participants and even to spectators. If these parts and/or products are used in motor sport competition, any and all risk of and liability for any resulting damage, injury or death is with the purchaser/driver.
